

主催： アジア共生社会を創成するための国際連携教育プログラム

共催： 生物資源コロイド工学リサーチユニット

Seminar on Colloid and Interface Engineering in Soil

Lecturer： Prof. Wenfeng Tan (Huazhong Agricultural University)

Room： B201

Subject： Behavior of Chemical Substances in Soil

1st day(General)

Mar.14(Thu) 10:00~12:00, 14:00~16:00

- The introduction of Soil Science in China
- Characteristics of Soil Colloid (General)

2nd day(Application)

Mar.15 (Fri) 10:00~12:00

- Sorption of heavy metals on soil components, especially for Fe and Mn oxide, and adsorption model
- Soil mineral-microorganism interactions and Environmental impacts

Those who have an interest in joining the seminar, please contact below.

Prof. Y. Adachi (Ex) 4862
