

Final lecture event of prof. Adachi on-line proposed by Bio-Flocculation seminar

Date: March 28, 2024, Time: 17:00 – 19:00 (JST) Mode: Online [Zoom]

Bio-Flocculation seminar is initiated by the call of Prof. Adachi, two and half years ago. This is an online monthly meeting and has been carried out after Cov-19 for these two and half years among the foreign Ph.D. students and their supervisors. The continuity has become very important for the network formation in the field of bio-resource engineering in the same time domain beyond the country. We proposed carrying out the March meeting as a special event of Research Unit of Colloid Engineering in Bio-resources on the occasion of the official retirement of Prof. Adachi.

Guest Organizer

Prof. Hongtao Wang
